obp’s ER-SPEC is a single-use vaginal speculum with integrated LED light source. The ready-to-use device eliminates the time and expense of reprocessing and reduces the risk of cross-contamination in the medical setting by making rechargeable and plug-in light sources obsolete.

ER-SPEC is designed for use on women undergoing a procedure requiring vaginal access and exposure, such as a pelvic examination. Ideal for clinics, emergency rooms, urgent care centers, and physician offices; ER-SPEC is the most trusted brand of pre-lit single-use vaginal specula worldwide.

ILLUMINATE THE EVERYDAY

obp is the leading global developer of single-use, self-contained, illuminating medical devices. We integrate light with device — making them one — creating effective and simplified single-use solutions. Our innovative products are used in more than 10,000 physician offices, surgery centers and hospitals throughout the U.S., as well as healthcare facilities worldwide. At obp, we illuminate the everyday.

THE MOST COMPLETE LINE OF PRE-LIT SINGLE-USE VAGINAL SPECULA
